Welcome to **LEARN WITH SAT**

Learn with SAT is a Leeds-based tuition agency that specialises in Home Education and Special Educational Needs provision for primary, secondary, and higher education, particularly those who are on an EOTAS package.

I believe that education should be accessible for all, no matter your health or support needs. As a teenager, I struggled at high-school and had poor attendance due to what I now know is a condition called Ehlers-Danlos Syndrome. At the time, I found it incredibly challenging to attend school, and even when I was at school, just walking between classrooms and focusing in lessons was a huge challenge for me.

It is because of my own challenges in education that I created Learn With SAT - an environment and learning provider who understands medical and special educational needs because we ourselves have been there, and as such, we understand the emotional and physical toll that education can have on a young individual.

It is our belief that education should have the student at its centre, and that the student should actively be encouraged to use their voice to choose and design their own bespoke package of education that truly caters for their needs and ambitions.

Sammie Allen

OUR ETHOS

INNOVATORS OF EDUCATION

We take pride in building strong connections with the young minds we work with, fostering an environment that supports not just their education but also their overall personal growth.

Our approach goes beyond academics, aiming to empower students with life skills and confidence. Through individualised support, inclusive spaces, and holistic education, we're dedicated to shaping well-rounded individuals who are not only academically successful but also resilient and equipped for life's journey.

Looking ahead, we're dedicated to creating an environment where students not only thrive academically but also discover their unique voices and passions. Come join us on this educational adventure, where personalised learning, mentorship, and a supportive community set the stage for a lifetime of success and fulfillment.

OUR ETHOS

INNOVATORS OF EDUCATION

Why should you choose us to educate your child?

Well, it's simple! We truly care about your child's education. We go above and beyond to ensure that your child is catered for, and only receives the best education.

Ultimately, our main goal is to equip your child with the tools they will need to thrive, and we truly feel that Learn with SAT can, and will, make a difference.

TESTIMONIAL

“**Highly** recommend Sammie Allen and her team. We started using her about 2 years ago when our daughter was struggling in mainstream education.

They have **transformed** our daughter into an engaging, highly motivated and independent learner who has just recently finished doing her IGCSE's, **something that we could not even imagine 2 years ago.**

Sammie's **dedication and patience** is exemplary and her attention to detail and recognising your child's learning needs is outstanding, so much so she aided in the diagnosis of my daughter's severe dyslexia something that was missed in mainstream school despite raising concerns in her earlier education.

It has been **a great success** and we look forward to our daughter's exam results and her next stage of college education.”

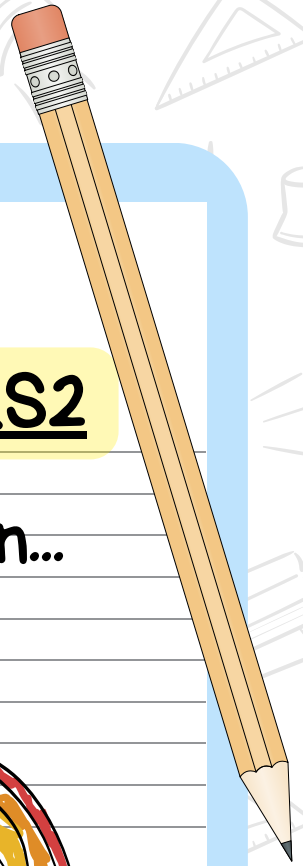

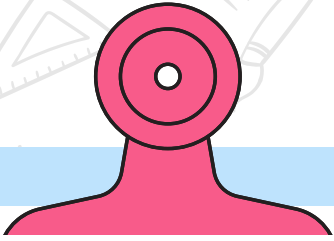

THE CREATION OF SAT

SAT was established with a visionary goal—to revolutionise education and ensure its accessibility to students from diverse backgrounds. Our primary focus revolves around creating student-centric programs that not only meet but surpass access requirements, aiming to reshape students' perspectives on education.

We are deeply committed to inclusivity, recognising the unique needs of each student. Our programmes are meticulously designed to cater to this diversity, fostering an environment where every learner can thrive.

Our commitment to innovation extends beyond traditional boundaries. We prioritise personal growth alongside academic achievements, integrating accessibility features into our curriculum to empower students to navigate their educational journey with confidence.

SAT is not just an agency; it's a catalyst for positive change in education. Join us on this transformative journey, where education is not only accessible, but also inspiring and empowering for students from all walks of life.

PRIMARY TUITION

Our primary tutors are highly proficient in their respective fields, offering comprehensive expertise in core subjects from Year 1 to Year 6, including mathematics, English, science, and humanities. The curriculum is thoughtfully designed, encompassing both EOTAS academics and EOTAS life skills to ensure a holistic and enriching educational experience.

Our team comprises predominantly of former teachers, possessing extensive expertise in supporting students through crucial milestones such as phonics screening, SATs, entrance exams, and the 11+.

Their proficiency extends to supporting Special Educational Needs and Disabilities (SEND), Social Emotional Mental Health (SEMH), and Alternative Provision.

To ensure the highest standards, our tutors are mandated to hold Qualified Teacher Status (QTS), possess an enhanced DBS certificate registered on the update system, undergo Level 1 safeguarding training, and boast hands-on experience in working with children with diverse SENDs. Our commitment to safety and excellence is unwavering.

“-----

Really happy with Learn With SAT

She sent Alice to my daughter to help her with extra support for SATS and as the weeks has gone on my daughters mock results have improved so much and her confidence it's lovely to see

Can't thank enough so glad I decided to get the one on one support x

-----”

MEET *(some of)* THE TEAM!

Alice
Primary
Tutor

I have over 5+ years of teaching experience in different school settings, have extensive experience tutoring online and have achieved Outstanding in many of my lessons. I also have vast experience with supporting SEN children and take pleasure in helping children of all abilities progress past their expected levels.

Tiba
Primary
Tutor

I love helping students achieve their goals, and I understand that every child is different. I have experience of working with SEN students, and I don't believe that one method works for everyone. I understand the importance of tailoring my tutoring sessions to each student's needs, and I am more than willing to accommodate this.

Lucy
Primary
Tutor

I am young and fun and my teaching style is very much hands on and interactive. My experience teaching younger children has given me valuable skills in breaking down tricky maths concepts and I like to use bar modelling and maths apparatus to build a solid foundation for maths and providing the building blocks to success. I am very patient and understanding and have the passion to see my students succeed

To see the rest of our tutors, please visit our website at
www.learnwithsat.co.uk

SECONDARY TUITION

Our secondary educators bring extensive expertise to assist students in navigating the challenges of GCSE and A-level examinations, catering to various exam boards such as AQA, Edexcel, and OCR.

Proficient in covering a diverse range of subjects, our teachers adopt a comprehensive approach, integrating both academics and life skills into their curriculum. Beyond academic support, our tutors offer valuable mentoring services, guiding students through UCAS and university applications, as well as providing assistance with crafting effective CVs.

Drawing from a wealth of experience, they bring a plethora of skills to support students on their educational journey. In addition to holding Qualified Teacher Status (QTS), our secondary teachers possess significant experience in addressing Special Educational Needs and Disabilities (SEND).

Committed to ensuring a safe and supportive learning environment, they undergo Level 1 safeguarding training and hold an enhanced DBS certificate, among other qualifications.

“-----

Sammie and her team (Abbas & Jack) were brilliant helping prepare our son for his GCSEs. They built his confidence & knowledge in core subjects of maths & science. Thank you Sammie, Abbas & Jack. We would highly recommend.

-----”

MEET *(some of)* THE TEAM!

Sammie
Science
Tutor

As a science and maths tutor, I tutor all ages in Science; Biology, Chemistry and Physics – as well as Chemistry up to A-level. I also tutor SAT practise and entrance exams such as the 11+, as well as KS3 and GCSE Maths. I have developed programmes that cover the entire GCSE syllabus for iGCSE & GCSE too.

Tabitha
Science
Tutor

My caring and passionate nature means I have a reputation for building effective relationships with students, carers and staff to ensure all children make progress. I truly believe in a holistic view to supporting pupils and good communication is key to this.

Alex
English
Tutor

My tutoring style is friendly, approachable and always encouraging my students to learn through debate, discussion and a range of multi media resources but I also require my students to challenge and set ambitious targets for themselves with the aim of them achieving their goals. I am willing to teach online as well as face to face tuition.

ONLINE TUTORING

BLOG POST!

When the first cases of Covid-19 hit back in March 2020, tutors were forced to move from face-to-face sessions to staring blankly at a computer screen. We had to lock the family out of the living room, argue with internet providers about the terrible signal, and say "Can you hear me?" about 100 times a day.

How did we adapt?

Living room sofas and kitchen tables became the new classroom, the new area of inspiration and creativity, and many had to adjust to finding new ways of keeping children motivated!

We have witnessed teachers move away from the predictable PowerPoint presentation to setting up the camera across the other side of the room, straining their voices by asking a child to recite their 5 times tables whilst doing star jumps. It opened a new world into what online learning can do!

Creativity began to flow through all of us and quality learning became easy. Our tutors at Learn With SAT have gone above and beyond to ensure that one tiny screen can be the eyes into a new world of learning.

We currently deliver tutorials using online telecommunication platforms that are completely free for the child. This enables us to deliver the content to the students live rather than pre-recording the lessons. The lessons can be recorded and made available to the student after the tutorial, so that they have the opportunity to re-watch the lessons in their own time to aid revision or homework purposes.

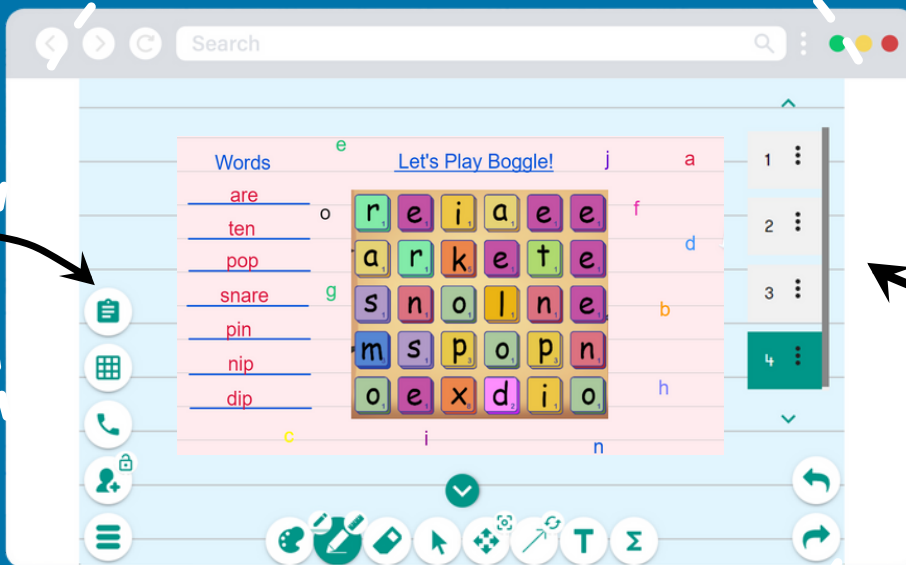

ONLINE TUTORING

Alongside this, the tutor uses an online interactive notebook that the student can access 24/7. The tutor will be able to work through examples, slides, model answers and past paper questions with the students, just as if they were sitting next to each other! The notebook can also be created into a printable PDF for the student.

The tutors will also use polls and quizzes during the sessions to monitor progress and learning, ensuring that the student is engaging with the content and ensuring academic progression.

After a tutorial, the tutors will set homework tasks that will be based around further developing the skill set or content knowledge that was the focus of the tutorial.

ONLINE TUTORING

Whether your preference leans towards pre-recorded sessions, real-time interactive learning with the tutor, or a combination of visual and non-visual communication modes, our tutoring platform provides a spectrum of tailored options.

We take pride in our commitment to crafting sessions that precisely align with the individual learning preferences of every child.

Some may harbor reservations about the effectiveness of online learning for their child, but rest assured, our tutors possess the expertise and training required to ensure optimal concentration, sustained engagement, and the achievement of all learning objectives.

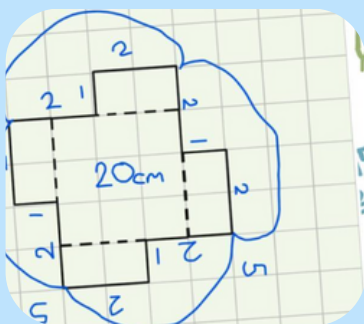

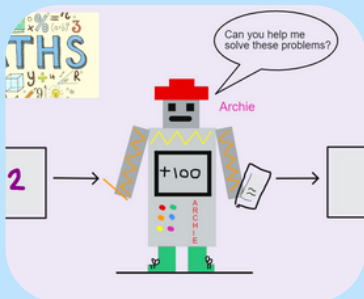

ONLINE TUTORING

Our commitment extends beyond the virtual realm as we strive to create an enriching educational experience.

If you're considering online tutoring for your student, we invite you to reach out and engage in a conversation with us. Let's explore how we can precisely tailor sessions to meet your student's unique needs and maximise their learning potential.

Just look at some of the fantastic things we've done with Online Learning!

Maths - Problem Solving
 on Time - 60 Minutes
 To complete 2 problem solving questions

What kind of Maths are we completing here?

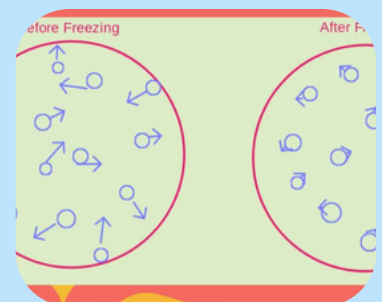

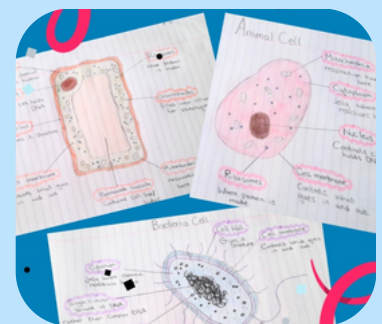

2. 8 children are given 12 sweets each. How many sweets are there altogether?
 Circle the correct calculation below and find the answer.

12 + 8 = 8 × 12 =
 12 × 8 = 12 - 8 =

3. a) If a class has 32 children and the teacher puts them into groups of 8 for the PE lesson, how many groups are there? Explain how you know.

b) In another class, the children are in groups of 5 for their PE lesson. If there are 6 groups, how many children are in the class?

Emotion icons: Annoyed, Bored, Disappointed, Embarrassed, Happy, Hot, Proud, Quiet.

TESTIMONIAL

“**Friendly supportive** tuition which has boosted my daughters confidence enormously. Skype sessions are **ideal** and with the screen sharing tools they use, **they are equally as interactive as face to face**. Given how happy we’ve been with the GCSE Maths tuition, Sammie and her team will be my **first port of call** for A Level Biology and Chemistry support should my daughter need it..”

“We used Learn With SAT for A level Maths and Physics tutoring and study mentoring. Hajira and Angelika really helped M **improve** and were very supportive, improving his **confidence** and marks. Sammie is very responsive and flexible and coached and mentored M in study and planning techniques. I wouldn’t hesitate to recommend them, we are **very satisfied** with them.”

SEND ACCESSIBILITY

We believe that we have created an online environment that deeply understands medical and special educational needs, drawing from our own experiences. As individuals who have navigated the challenges of medical conditions and special educational requirements, we intimately comprehend the emotional and physical toll that education can take on a young person.

Our belief in student-centric education goes beyond rhetoric; it is the driving force behind our commitment to empowering students. We advocate for an approach where the student is not a passive recipient but an active participant in their educational journey. In our view, education should revolve around the student, and they should be actively encouraged to use their voice. We champion the idea that each student has the right to choose and design their bespoke package of education, one that authentically caters to their unique needs, aspirations, and ambitions.

If you have ANY concerns about how we can tailor sessions to your child's needs, please give us a call.

EOTAS AT LEARN WITH SAT

Education Other Than At School (EOTAS) is a term for when a child with Special Educational Needs (SEND) requires a specific educational setting away from the school environment tailored to their needs. A child with an Educational Healthcare Plan (EHCP) could be required to partake in education at home, under a formal EOTAS agreement.

According to gov.uk, "EOTAS makes educational provision for children with social, emotional behavioural, medical or other issues who, without its provision, cannot access suitable education."

EOTAS should not be confused with home-education, as EOTAS places a completely different kind of responsibility from the local authority onto the parents and teachers supporting the child.

Section 42 of the Children and Families Act (2014) ensures that the local authority is under a legal obligation to ensure that the child receives the education highlighted in their EHCP.

The key goal of EOTAS is to create a bespoke package of education that meets the needs of the child's EHCP.

This usually includes details such as all teachers having Qualified Teacher Status (QTS), dedicated, paid time being granted to support the natural characteristics of SEND provision, and granting educational equipment where necessary such as laptops, workbooks, and desk equipment.

The tutors at Learn With SAT are not only experts in EOTAS, but also have years of experience handling the details of the provision required by the local authorities.

We provide guidance and support to those participating in the EOTAS journey, and are here to help. Therefore we have created a list of activities we offer at Learn With SAT.

- 1** The first step in an EOTAS booking is to get an idea of the funding that has been allocated to the child in order to get an understanding of the amount of sessions we could provide them with.
- 2** We then liaise with parents about their child's EHCP requirements in order to find the tutors that will best suit the child's personality, interests and SEN profile.
- 3** We then spend time training the tutors of the in's and out's of the EHCP, so they can understand what your child requires in order for the EHCP objectives to be met.
- 4** We then create a timetable that focuses on your availability. This ensures that your child is receiving the best education at a time that suits them! The lesson content can be discussed, changed or manipulated with you so that the content can support the child's interests, while still complying the LA's objectives.
- 5** In order to mark the progress of the sessions, we create a progress planner for your child which will highlight any development we wish to make with the sessions, or simply fantastic learning!
- 6** We like to keep you in the loop as much as possible, therefore we also hold termly parents evenings, take on board changes and even support you with recommendations of our own.

This is just the beginning of the support we provide for EOTAS. If you require more information, please give us a call on 07753166900

TESTIMONIAL

“Sammie tutors my son for A Level Chemistry. He’s a very quiet laid back boy so you know instantly when he clicks with someone and he’s happy to learn. Sammie has identified where his weak points are and what he needs to learn. Slowly I am seeing a **confident** boy who is **happy learning**. I am always kept in the loop in regards to work set and how he engages/learns during the lesson. So happy with his learning and how he is progressing. **Will highly recommend.**

Katie also tutors my son for A level Maths and again he is very happy with how is he learning and how the lesson is taught. Any questions I have, I feel comfortable in asking and Katie is **very accommodating**. Again I highly recommend.

Thank you both for putting my mind at ease in how my son is learning. I’m sure I’m not the only parent who constantly worries about their child’s education and I feel Sammie Allen tutoring have been **fantastic in helping both parent and student.**”

GETTING STARTED

- **Visit our Website!**

Head to www.learnwithsat.co.uk to find out more about Learn With SAT. Here you will find all our tutors profiles, explanatory videos of how SAT works and how we teach online, and much more.

- **Get in touch with us.**

Call us on 07753166900 or email us at admin@learnwithsat.co.uk. Alternatively you can head to our website and fill in the contact form. If your emailing or filling in our contact form, include a bit of information detailing what kind of tutoring you are looking for. We will get back to you as soon as we can and we will follow up an enquiry with a phone call so we can understand your request fully.

- **Choose a Tutor**

We believe that as a parent, you should be involved in selecting the perfect tutor for your child. Once we have understood your child and any additional needs that need to be met we will present you with a selection of tutors we believe would be a perfect match. You will be given links to there online profiles where you can choose which tutor that you believe is the best match for you and your child.

- **Communicate with Sammie and the rest of the team!**

Now is the time to get talking. We want to ensure that we communicate with you every step of the way in organising your bespoke package of education.

- **Arrange a session!**

Book a session with the tutor of your choice, we will send you all the information you need in regards to the programs we use.

Congratulations! You're now part of the Learn With SAT team!
